MEMORANDUM FOR DEPUTY ASSISTANT SECRETARY OF THE ARMY, DEFENSE  
EXPORTS AND COOPERATION,  
ATTN: SAAL-NP (MR. FLOYD BAKER)

SUBJECT: Elimination of the Nonrecurring Cost (NC) Recoupment Charge - 20mm Cartridge,  
DSCA Policy Memo 11-42

In response to an Army request, dated April 28, 2010, to reclassify 20mm cartridges from major defense equipment to significant military equipment (SME) and remove the associated NC charge and in accordance with Department of Defense (DoD) Directive 2140.2, dated 13 January 1993, the Director, DSCA, has eliminated the non-recurring cost (NC) charge for 20mm cartridges.

Army cited a lack of records and an internal U.S. Army Joint Munitions Command Internal Review and Audit as the basis for the request. Without the historical records, the pro-rata charge cannot be validated during biennial reviews.

Per Section 32, Code of Federal Regulations, Part 165.5(1)(2), the 20mm cartridge will continued to be identified on the United States Munitions List; however, the \$0.20 NC charge will be displayed as "expired" as of the date above. The Defense Security Assistance Management System will be updated to reflect all 20mm Military Article Services List identifiers as SME and all currently loaded NC charges will be expired as of the above date.
