SUBJECT: Security Assistance Management Manual (SAMM), Administrative Changes,  
Defense Security Cooperation Agency (DSCA) Policy 20-46, [SAMM E-Change  
494]

This memorandum updates the SAMM with clerical and administrative changes. This memorandum does not contain contextual policy changes. DSCA will issue contextual changes to the SAMM under a separate policy memo/SAMM E-change. These administrative changes will be included in the online version of the SAMM at <http://www.samm.dsca.mil>.

The SAMM changes identified in this memorandum are effective immediately. For questions, please contact Andrew Mayer, [Andrew.P.Mayer.civ@mail.mil](mailto:Andrew.P.Mayer.civ@mail.mil), (703) 697-9480.

A handwritten signature in black ink, appearing to read "A. Gorowitz", is positioned above the typed name.

<b>XX</b>	Submersible Vessels and Related Articles
<b>XXI</b>	Articles, Technical Data, and Defense Services Not Otherwise Enumerated

3. C6.1.2. Emergency Case Implementation. Clarify the appropriate approval level by revising the first sentence.
  - Current: On an exception basis, DSCA (Directorate of Business Operations (DBO)) may approve emergency implementation of an FMS case.
  - Revised: “On an exception basis, the DSCA/CFM Supervisor may approve emergency implementation of an FMS case.”
  
4. C8.3.1. Routine EUM. Clarify the reporting process by revising the final sentence.
  - Current: SCOs must conduct REUM checks at least quarterly, and must document all REUM checks using the electronic REUM checklists available in the SCIP-EUM database.
  - Revised: “SCOs must conduct REUM checks at least quarterly, and must document all REUM checks in the SCIP-EUM database using the REUM check entry form available on the Routine EUM page.”
  
5. Appendix 6 Letter of Offer and Acceptance Notes. Delete the Enhanced Targeting Data (ETD) Physical Security and Accountability Requirements note at <https://samm.dsc.mil/loanote/enhanced-targeting-data-etc-physical-security-and-accountability-requirements>. This change is consistent with actions in 2018 that removed ETD from the Enhanced EUM list, updated the MASL to Routine ("R") and removed ETD from SAMM C8.T4 Defense Articles Designated for EEUM for all FMS-eligible Countries table.
  
6. Appendix 6 Letter of Offer and Acceptance Notes. Clarify note usage in each of the following notes:
  - Communications Security (COMSEC) Enhanced End-Use Monitoring (EEUM) - FMS - NATO Members, Australia, Or New Zealand;
  - Communications Security (COMSEC) Enhanced End-Use Monitoring (EEUM) - FMS - To Other Than NATO Members, Australia, Or New Zealand,
  - Communications Security (COMSEC) Enhanced End-Use Monitoring (EEUM) - BPC - NATO Members, Australia, Or New Zealand; and

- Communications Security (COMSEC) Enhanced End-Use Monitoring (EEUM) - BPC - To Other Than NATO Members, Australia, Or New Zealand,

by combining two sentences in current language to a single sentence. Current and revised versions below:

- Current: "Mandatory for Amendments and Modifications that add COMSEC equipment. Mandatory for Amendments that add no additional COMSEC equipment if the note on the current implemented version of the case varies from this text."
- Revised: "Mandatory for Amendments and Modifications that include or add COMSEC equipment if the note on the current implemented version of the case varies from this text."

7. Glossary. Revise the definition of Third Party Transfer for accuracy to read:

- Current: "The retransfer of U.S. defense articles, services, and training to a country (a third country) from a country that originally acquired such items from the United States. As a condition of the original sale or transfer, the recipient government must obtain the consent of the Department of State for any proposed third country/party transfer. Also, when such proposed transfers involve items valued at \$50 million or more, or \$14 million or more of MDE, they must be reported to Congress and are subject to a joint resolution of disapproval. Finally, as a condition of such transfers, the country acquiring the items must agree to obtain the consent of the DoS in the event of a future sale to yet another country."
- Revised: "The transfer from its current owner to a foreign government or any private entity of U.S. defense articles, services, training, or information originally acquired from the United States by a foreign government. As a condition of any U.S. Government authorized sale, lease or grant, the divesting party must agree to obtain the written consent of the Department of State prior to any temporary or permanent retransfer of, or access to, U.S.-provided defense articles, data, services, and training to a third party, defined as anyone not an officer, employee, or agent (defined as freight forwarder only) of the divesting government or of the USG. The term is also used to refer to the requirement to seek prior Department of State approval for modifications, changes in end-use, and disposal."
